

VSP Diabetic Eyecare Plus Program

VSP® Vision Care is committed to providing members with eye care that supports your overall health. That's why we offer the VSP Diabetic Eyecare Plus ProgramSM. This plan allows you to receive additional follow-up medical eye care services from your VSP network doctor.

What's covered under the diabetic eyecare plus program

Members with diabetes receive a covered-in-full retinal screening (digital imaging of the inside of the eye). These retinal photographs help your doctor establish a baseline to monitor changes in your eyes over time.

If you have diabetic eye disease, glaucoma, or age-related macular degeneration, you can also receive:

- Additional services that track and monitor diabetic eye disease progression
- Follow up medical eye exams deemed necessary by your VSP network doctor
- An additional eye exam with refraction for changes in vision due to diabetes medication(s)

Additional details

This coverage is supplementary. When your VSP network doctor participates in your medical insurance plan's network, your medical insurance will be billed. You may be able to coordinate with your VSP benefits in order to help reduce out-of-pocket costs. If your VSP network doctor doesn't participate with your medical insurance plan, VSP has you covered with only the cost of your copay.*

Did you know?

VSP members can save up to 75% on test strips and other diabetes care supplies. Visit [vsp.com/simplevalues](https://www.vsp.com/simplevalues) to access your savings.
